

I believe that Air 1 is one of the greatest things that has ever happened for radio in it's history...My family & I not only personally listen to the station all day long but we pass the station on to others in the community..Air 1 truly is a safe alternative for the whole family compared to most stations that insist on cussing all day...telling dirty jokes.. beer commercials etc..etc...Air 1 is a blessing to our community. I lived in a mountain community for 4 yrs where Air 1 didn't come in clearly and It was the biggest drag...and best of all Air 1 is all about Jesus!

thank you so much
